

## Webinar on Introduction to 3D GIS Data – GEPSUS set 2-5 December 2014

### Agenda

Day	Date	Hours	Topic	Responsible
2/12/2014	10:00-12:00	2	Introduction to aerial photogrammetry: instruments, calibration and processing workflow	Terra Messflug
2/12/2014	14:00–16:00	2	Flight planning and image acquisition	Terra Messflug
3/12/2014	10:00-12:00	2	Trajectory Estimation, Ground survey and Aerial Triangulation	Terra Messflug
3/12/2014	14:00–16:00	2	Orthophoto and True-Orthophotos generation	Terra Messflug
4/12/2014	10:00-12:00	2	3D point cloud extraction and digital surface modelling	Terra Messflug
4/12/2014	14:00–16:00	2	3D point classification	Terra Messflug
5/12/2014	10:00-12:00 14:00–16:00	4	Case study using Trento dataset	Graphitech
